## Virtual Feminist Leadership Academy

Women's Center : Thursday September 3, 2020

Join the Women's Center and LGBTQ+ Programs for the Fall 2020 Feminist Leadership Academy!

The dates for our virtual retreat will be September 11-12, 2020 on Zoom. This retreat will include group sessions, community building and identity workshops, with more detailed logistical information to come in the next week!

The Georgia College Women's Center is continuing the Feminist Leadership Academy (FLA) as a way to bring together women-identifying and ally students to empower them in fostering connections on campus and in the community, as well as discover their personal relationship with feminism. This will allow for expansive conversations around intersectionality, feminism, growing communities of women and exemplifying these values in daily life. FLA will continue to provide historical context about the cultural norms that have limited women's participation in leadership roles. We will continue our conversations on the importance and impact of intersectional feminism and how to continue the work of feminist organizing on-campus in a virtual world!

Below are the Feminist Leadership Academy learning outcomes for the Fall:

- Participants will analyze the impact that their privilege has on leadership roles and opportunities, as well as how to promote power for women who have less access to the same opportunities.
- Participants will collectively engage in formulating solutions that address issues of inequity and incorporate their greater understanding of feminism.
- Participants will be able to identify how their personal values that motivate them to take action in their communities and on their campus have changed and been promoted since the Fall retreat.

Registration is due by September 4, 2020 at <http://bit.ly/FemLead2020>. Please get in touch with Emily Brookshire at [emily.brookshire@gcsu.edu](mailto:emily.brookshire@gcsu.edu) if you have any questions!

# CTL Webinar: Video Recording Solutions for Recording Your Presentations or Tutorials

Center for Teaching & Learning : Friday September 4, 2020

Teaching through multimedia is increasingly popular in the 21st-century classroom. The use of sharing feedback, instruction, and step-by-step tutorials enhances learning and allows all learners to learn at a pace that fits best for each individual. In this session, we'll explore the many ways and benefits of using screen recording software. Attendees will learn why they would want to use recording software. This workshop will focus on using Kaltura, a screen recording software, that is built into GeorgiaVIEW. Attendees will learn the basics of recording their screen, saving and uploading video recording files to GeorgiaVIEW, and learn the importance of incorporating a script and closed captions. Attendees will also get a glimpse of additional software that can be used to record what is on the screen.

Registrants will be sent the link to attend the webinar. A recording will be released.

# CTL Webinar: Maintaining the Magic

Center for Teaching & Learning : Wednesday September 30, 2020

Dr. Cynthia Alby suspects most of us feel compelled to trim and compress our courses in the COVID environment, but how can we do that without losing what we have found especially meaningful in the past? We are used to taking our students into our community and abroad, conducting research with them, helping them find internships, and developing their leadership skills. But these types of activities feel more difficult right now.

Now that we know we are likely to have a Spring semester much like this one, how do we ensure we can still infuse our courses with meaning and magic rather than slogging through? Want ideas to help overcome the slog? Come! Got ideas to share? Come! Just need to hang out for a bit with faculty you haven't seen in a while? Come!

Registrants will be sent the link to attend the webinar. A recording will be released.
