Hispanic Heritage Month Events

Cultural Center : Monday October 5, 2020

The Cultural Center invites you to join in the celebration during Hispanic Heritage Month. We would like honor, pay tribute to and spread awareness about the history, contributions, social issues and cultures of the peoples of Hispanic Heritage and descent. In 1968, Congress passed legislation authorizing and requesting President Lyndon Johnson to designate the week which included September 15 and 16 as National Hispanic Heritage week. By including these dates, the law "celebrated Hispanic Americans and the anniversaries of independence for the Latin American Countries of Costa Rica, El Salvador, Guatemala, Honduras and Nicaragua as well as Mexico's independence on September 16th." In subsequent years, presidents issued proclamations that continued the celebration of those of Hispanic origin as well as the work of Spanish explorers and settlers from earlier times. In 1988, Congress passed a law establishing National Hispanic Heritage Month and in 1989 President George W. Bush issued the first presidential proclamation for the month. Presidents from that time until the present have "issued annual proclamations for National Hispanic Heritage month."

Georgia College hosts event to collect and safely dispose of medications

University Communications : Wednesday October 14, 2020

Georgia College is hosting a “Drug Take Back Day” Thursday, Oct. 29, from 10 a.m. to 1 p.m. The Office of Health Promotion, GC Public Safety, College Prevention Partnership and the student organization Health Movement are coordinating the event to collect prescription and nonprescription medications and dispose of them safely.

The collection takes place in the parking lot behind Hall House at the corner of W. Montgomery and N. Liberty Streets.

“People can either drive through in their cars or walk over to our Green Health Movement Hut to drop off their medications,” said Rachel Pope, prevention coordinator in the Office of Health Promotion.

“There is no need for anyone to get out of their vehicle—just pull up and put your medications in the red bags,” she said.

All facilitators will wear masks, and hand sanitizer will be available on-site. There is limited contact when disposing of medications.

“We have done this for the past three years in partnership with the College Prevention Partnership, a grant program we work with that educates college students about prescription drug misuse and abuse,” said Pope.

Safe disposal ensures medications do not get mishandled. It also prevents potential overdoses and protects the environment, because medications are not flushed in toilets.

“We are hosting this event for the community and GC campus to safely dispose of any unwanted, expired or unused pill medications—over the counter or prescribed— in a safe way,” said Pope. “The medications will be incinerated.”

This event is free and open to the public. No liquid medications or needles can be accepted at this event.

For more information, email rachel.pope@gcsu.edu.

Equality and Access – The Importance and Complexity of Transgender and Intersex Inclusion in Sports

College of Business : Thursday October 15, 2020

The College of Business Diversity Series and LGBTQ+ Programs Present:
Equality and Access – The Importance and Complexity of Transgender and Intersex Inclusion in Sports

October 21st

3:30 p.m.

Zoom: <https://gcsu.zoom.us/j/94320669575?pwd=VHZzOEI2L3Bsck1sakpPM2FoMW1UQT09>

Joanna Harper, an internationally-respected researcher, medical physicist, and consultant on issues regarding gender and athletic performance, will discuss issues related to transgender and intersex athletes. At a time when States and Nations are passing laws prohibiting trans athletes from competing, and when accrediting bodies are changing rules to try to guarantee inclusion and equity for all athletes, it is important to recognize that to solve a problem we must first truly understand it. Ms. Harper will discuss the history, the science, and the implications for creating a genuinely balanced playing field for athletics at levels from high school up to Olympic competitions.

Biography:

Joanna Harper has a master's degree in physics and experience as a medical physicist. She has been an advisor to the International Olympic Committee (IOC) on matters of gender diversity and sport since 2015. In 2019, she relocated to Loughborough University, where she is engaged full-time in the study of transgender athletic performance. She authored the Rowman and Littlefield book *Sporting Gender: The History, Science and Stories of Transgender and Intersex Athletes*. Harper has written articles on gender diverse athletes in peer-reviewed publications and in the Duke University Law Review, including "The Fluidity of Gender and Implications for the Biology of Inclusion for Transgender and Intersex Athletes." She was also a witness for the IAAF at both the Dutee Chand and Caster Semenya cases before the Court of Arbitration for Sport. She has worked with international and national sporting federations to help develop appropriate transgender specific eligibility policies. Her research on the performance of transgender and intersex athletes was inspired by the reduction in her own running speed after her gender transition in 2004. In 2015, Harper published the first peer-reviewed article containing quantitative analysis of the athletic performance of transgender athletes with differing hormonal values. Since then she has collected subsequent retrospective data on transgender athletes and is currently engaged in a prospective analysis of two transgender athletes. Harper speaks frequently at scientific and professional conferences around the world on issues related to transgender and intersex athletes.

Georgia College Leadership Programs to host distinguished international panel-- Peace and Stability in Europe: With or Without NATO?

Leadership Programs : Monday October 19, 2020

On Wednesday, October 21st at 10 a.m., Georgia College Leadership Programs will host a panel on "Peace and Stability in Europe: With or Without NATO?" A distinguished panel of discussants, including the Hon. Darragh Paradiso, consul-general of the United States in Strasbourg, and Dr. Rüdiger Lentz, executive director of the Aspen Institute of Germany, will explore the current state of European security and defense policy.

The nonpartisan event will be hosted by Georgia College's Office of Leadership Programs, in collaboration with the European Study Center and the Institut d'études politiques at the Université de Strasbourg, both in France.

Panelists will explore the current state of transatlantic relations, including debates over the future of a U.S.-led defensive alliance and the potential for an emerging multipolar international order.

"The current international security régime, born in the years following the Second World War, are increasingly under re-evaluation--if not threat," says Dr. Harold Mock, one of the discussants. "Our panel will bring together contributors from both sides of the Atlantic, from the diplomatic corps and academia, and we look forward to a fruitful discussion."

Panelists include:

- Dr. Rüdiger Lentz, Executive Director, Aspen Institute of Germany.
- Dr. Harold Mock, Assistant Professor of History and Director of Leadership Programs, Georgia College.
- Leo Michel, Senior Fellow, Atlantic Council and Finnish Institute of International Affairs.
- The Hon. Darragh Paradiso, Consul-General of the United States in Strasbourg and Deputy Permanent Representative to the Council of Europe, U.S. Department of State.
- Dr. Birte Wassenberg, Professor in Contemporary History, l'Institut d'études politiques, Université de Strasbourg.

The event will feature interactive exchange with Georgia College students. "As a liberal arts institution, we teach our students in the classic tradition of leadership for the public good," says Mock. "That involves preparing students for thoughtful and engaged citizenship and active dialogue with thought-leaders in public life."

The event is free and open to the public. The discussion will be conducted in English. To register and join this discussion, please visit <https://bit.ly/3dD9sVB>.

Clothesline Project

Women's Center : Tuesday October 20, 2020

Join us for the 18th annual Clothesline Project from 10 am until 3 pm from October 20-22 on the Front Campus of Georgia College (In front of Atkinson Hall towards Hancock Street).

The Clothesline Project is made up of t-shirts created by survivors of violence, or in honor of someone who has experienced power-based interpersonal violence. The project is a visual reminder that the statistics we often ignore are very real. The project began with 31 shirts in Cape Cod, MA in 1990 and has spread to communities all over the world.

It is the very process of designing a shirt that gives each survivor a new voice with which to expose an often horrific and unspeakable experience that has dramatically altered the course of their life. Participating in this project provides a powerful step towards helping a survivor break through the shroud of silence that has surrounded their experience.

T-Shirt Colors

White: people who have died as a result of power-based interpersonal violence

Yellow: survivors of physical assault or domestic violence

Red, Pink, and Orange: survivors of rape or sexual assault

Blue and Green: survivors of incest or childhood sexual abuse

Purple: survivors of attacks due to actual or perceived sexual orientation

Brown: survivors of assault due to actual or perceived religion or political beliefs

Black: for those disabled as the result of an attack, or assaulted because of an actual or perceived disability.

Gray: survivors of emotional or verbal abuse

Virtual Insanity Wind Symphony Concert

Music, Department of : Thursday October 22, 2020

Thursday, Oct. 29 At 7:30 p.m., Georgia College will present its annual Wind Symphony concert online, inspired by the 1996 song "Virtual Insanity" by Jamiroquai, to musically portray the COVID-19 pandemic—showing humanity's ability to survive and even flourish. The music is intended to share the darkness of the crisis, while moving toward hope, perseverance and light. One positive outcome of COVID-19 has been ways people have adapted by using new technology, procedures and habits. This program utilizes new techniques, as well. All rehearsals and pre-recordings were done by distance through the use of technology. This was a huge undertaking and steep learning curve for the ensemble, making the performers stronger musicians. Compositions include "Life Painting" by Aaron Perrine and "Let Me Be Frank" by John Mackey. This concert will be live-streamed at facebook.com/GCMusicDepartment. A \$5 donation is encouraged. Online donations can be made at alumni.gcsu.edu/music. All proceeds benefit music scholarships or the [GC Department of Music](#) through GCSU Foundation, Inc. Jazz Band Concert: Take the "Virtual" Train

Music, Department of : Thursday October 29, 2020

Thursday and Friday, Nov. 5-6 The Georgia College Jazz Band will livestream its fall concert, "Take the Virtual Train," at 7:30 p.m. both nights. The band will perform classic sounds from charts by Antônio Carlos Jobim, Billy Strayhorn, Oliver Nelson, Miles Davis and Peter Pearson. The concert title is taken from Strayhorn's "Take the A Train," which will be performed along with other compositions from the 20th century, like Jobim's "Desafinado," Nelson's "Hoe-Down," Davis' "Seven Steps to Heaven" and Pearson's "Sweet Honey Bee." Since the COVID-19 pandemic, the Jazz Band has not met in person. All rehearsals, recordings and concerts are done by distance using technology. This has been a "steep learning curve" for his students, said Band Director Dr. Clifford Towner. He believes this has made them stronger and more independent musicians. Tune in to hear the results at facebook.com/GCMusicDepartment. A \$5 donation is encouraged. Online donations can be made at alumni.gcsu.edu/music. All proceeds benefit music scholarships or the GC Department of Music through GCSU Foundation, Inc. For more information, please email music@gcsu.edu or call 478-445-8289.

Boren Scholarship Alumni Panel

Honors College : Friday October 30, 2020

The International Education Center and the National Scholarships Office will be hosting a virtual alumni panel on the Boren Scholarship. We'll be joined by Jonathan Mangrum, GC '19, Boren Scholar in Urdu, and current GC senior David Williams, Boren Scholar in Swahili. All members of the GC community are invited to attend.

The Boren Scholarship funds study abroad in less commonly taught languages, including: Arabic, Mandarin, Portuguese, Russian, Korean, Turkish, Japanese, and Swahili. With maximum awards of up to \$25,000, most recipients study abroad for at least a semester and emerge with strong language skills, making them competitive for jobs both with the federal government and in industry. Recipients are required to work for at least a year in a position with the federal government that deals with national security. Boren does look at national security quite broadly - recipients have gone on to work for agencies such as: the CIA, the Department of Commerce, the Department of Defense, the Department of Homeland Security, the U.S. State Department, USAID, and many other agencies, as well as private contractors that work with these agencies.
