Students get the opportunity to judge the BBQ competition

History & Geography, Department of : Wednesday September 13, 2023

Over the 2023 Labor Day Holiday weekend, students from Dr. Pascoe's "Southern Foodways and Traditions" course and Dr. Welborn's "Southern Pitmastery: History of Race and BBQ in the U.S. Civil War Era" course participated in a service-learning activity at the local non-profit [Comfort Farms in Milledgeville, GA](#). Students provided volunteer staff assistance for the annual "Q for the Few Backyard Barbecue Competition" hosted by Jon Jackson of Comfort Farms. Some students got the opportunity to judge the BBQ competition. John Gilley, a junior history major, served as one of the 12 judges and said that it was an "awesome experience."

Both courses are part of the Global Foodways Studies Program in the Department of History & Geography at Georgia College & State University. This is an interdisciplinary undergraduate certificate program that focuses on patterns of food production, distribution, consumption and associated cultural meanings to enable students to better understand history, society and culture in the past and present as they look toward the future. Service-learning opportunities, such as this event and other experiential learning experiences, are an essential part of the program curriculum in all foodways courses.

Comfort Farms is the nation's first Acute Veterans Crisis Agriculture center. It prepares veterans and students for careers in sustainable food production that integrates economic profitability, environmental stewardship and healing through the use of a model of Agro-Cognitive Behavioral Therapy and organic holistic approaches. The farm serves veterans in acute situations where time and help are critical. Comfort Farms provides shelter and peer-to-peer therapy to veterans and their families so that they can regain strength and re-boot for everyday life. With the support of the USDA through agricultural grants, Comfort Farms has provided services to several hundred veterans and their families.

In this Webinar we will discuss how we can improve our emotional strength and how accepting our vulnerability makes us stronger.

Come solve a crime on Forensics Night

Chemistry, Physics, & Astronomy, Department of : Monday September 25, 2023

Due to last year's popularity--Georgia College & State University is making Forensics Night an annual event. This year's 'whodunit' will be 5 to 8 p.m. Thursday, Sept. 28, in Herty Hall, room 354.

“Forensics Night” is a chance for campus and community residents to help the university’s bobcat mascot Thunder stop a crime. Open to the public and for all ages, the evening is part of national Forensics Week. This year's mystery involves hands-on experiments in Herty Hall science labs, where GCSU students will assist people in solving a crime. (Someone has used counterfeit money to buy suspicious materials that could be used in dangerous situations.) Crime Scene Investigator (CSI) trainees will receive their badge and investigator materials as they begin. They’ll collect and process evidence. Using collected data, they will determine who the culprit is. For more information, please contact the [Science Education Center](#) at 478-445-7531.

John H. Lounsbury College of Education's 19th annual Summit Conference. A day of professional development for current and aspiring educators. This year's theme is Architects of Change: Identity Development of Young Adolescents and Educators.

College of Education : Thursday September 28, 2023

The senior middle grades cohort at Georgia College & State University is honored to invite you to attend Georgia College's 19th annual Collegiate Middle Level Association Summit Conference. The conference will take place Friday, Oct. 6, 2023, at GCSU from 8:15 a.m. until 3 p.m. We, the current middle grades students and faculty, have decided to invite figures to speak whom we feel will aid us in our continued education to becoming teachers and can appreciate the opportunity to learn from others in our field.

Our theme is "Architects of Change: Identity Development of Young Adolescents and Educators," with a focus on recognizing influences in one's past education that will affect their future classroom. It is our goal at the John H. Lounsbury College of Education for students to develop into extraordinary educators, leaders, advocates and citizens. We understand our experiences are an integral part of this process.

We aim to create a community that will promote more positive mindsets among students, educators and community partners in all schools. These factors all play a key role in our theme of "Identity Development of Young Adolescents and Educators." At the conference, you will have the opportunity to attend various breakout sessions to customize your learning experiences with topics that interest you. Some of these topics include Middle Level Coaching, various applications of AMLE standards in the classroom, how to integrate technology into more than just instruction, and so much more! The Summit The conference will take place at Georgia at Georgia College & State University's Kilpatrick Hall.

Human Resources, Office of : Thursday September 28, 2023

The Benefits Fair is just around the corner. We will host this in-person event Oct. 9, 2023, in the Magnolia Ballroom/Student Activities Center from 10 a.m. to 2 p.m. Many of our benefit and retirement vendors will be present and committed to speaking directly to you on this day. As usual, we have partnered with our designated provider to offer flu shots this day for those who were able to schedule appointments (registration closed Monday, Sept. 25, 2023, after multiple Front Page announcements).

We know that some of you may be off campus for Fall Break Oct. 9, so please keep an eye out for additional information on Information Sessions hosted by Georgia College & State University Benefits, both virtual and in-person, throughout the month of October regarding changes and reminders to keep in mind as Open Enrollment approaches. All details will be shared via FrontPage once they are available.

Mark your calendars for Oct. 9 from 10 a.m. to 2 p.m. – this Benefits Fair in Magnolia Ballroom/Student Activities Center will be your one-stop shop for all things benefits. We can't wait to see you at this year's fair!

Guest Artist Recital: Jared Cummings, saxophone

Music, Department of : Thursday September 28, 2023

Monday, Oct. 16 Guest artist and saxophonist Jared Cummings will perform some of his favorite music pieces at 7:30 p.m. in Max Noah Recital Hall. Some represent the locations he first played them. Others show the lessons he learned from them or the fun he has performing them. Compositions include a "Meditation de Thais" for violin by Jules Massenet and "Le temps des lilas" for voice by Ernest Chausson. "Bug" by Bruno Mantovani is meant to capture the anxiety from Y2K and the collapse of civilization, while "Esbozos Fugace" by Kenichi Ikuno Sekiguchi is an energetic piece that rises in intensity, keeping the audience at the edge of their seat. A \$5 donation is encouraged. All proceeds benefit music scholarships or the [GCSU Department of Music](#) through GCSU Foundation, Inc.
