

TWENTY IS COOLER

The Numeral System Built by Middle Schoolers

Join us for a short mathematics talk exploring the fascinating Kaktovik numeral system, a base-20 system developed by middle school students in Kaktovik, Alaska. The talk will introduce the origins of the system, explain how the numerals work, and highlight why this student-invented system is both elegant and mathematically powerful.

Speaker: Dr. Brandon Samples

March 23 | 5:00–6:00 PM

Arts & Sciences Room 243
