

Creature Camp:

All Creatures Colorful and Camouflaged

Wow! Look at that stick...wait, it's MOVING!!! How and why do animals use camouflage? What about the ones that warn you with bright colors? Learn all about ways that animals protect themselves through coloration at this year's Creature Camp! Students will spend the week meeting animals and using color as a way to protect, warn and mimic! Hosted by GC Academic Outreach and GC Continuing and Professional Education. Students must bring daily lunch and snacks will be provided.

July 11-15:

Open to rising 4th – 6th graders 3-5)

Fee: \$155

SCIENCE CAMP:

Electricity and Explosions!

GC Academic Outreach and GC Science Education Center are pleased to offer an annual all-science academic camp. Each fun-filled week of science at Georgia College will feature hands-on and outdoor activities presented by your camp counselors, Georgia College faculty, area scientists and local community members. In addition, campers will be assisted by some of the finest undergraduate students at Georgia College. Campers will study STEM fields including biology, chemistry, physics, and the environment. Students must bring daily lunch and snacks will be provided.

June 13-17:

Science Camp Jr. (entering grades 3-5)

June 27-July 1:

Science Camp (entering grades 6-9)

Fee: \$115 (10% discount for siblings)
